## About me

As an Information Technology student at President University, class of 2024, I have a strong background in web development and graphic design, as well as a solid foundation in cloud computing. Experienced in translating business needs into functional and engaging digital solutions, I also possess practical skills in analysis, technology implementation, and project management, honed through internships and various web projects. I am enthusiastic about continuing to develop my skills in these areas and contributing to innovative and effective solutions.

---

## Education

**SMKs Dinamika Pembangunan 1 Jakarta**

2021 - 2024

Teknik Komputer & Jaringan

**President University**

2024 - 2027

Informatika

---

## Experience

**Data Access Management | Magang - PT Telkom Indonesia, Jatinegara Feb 2023 – May 2023**

- Manage fiber optic access networks and analyze customer data
- Responsible for maintaining and managing customer information
- Providing relevant information to customers to support service delivery

**Salsa Photocopy | Graphic Designer (Photoshop), jakarta Juli 2022 - Dec 2023**

- Responsible for the graphic design process, including the creation and editing of visual materials (invitations, banners, brochures, certificates) using Adobe Photoshop.
- Interact directly with clients to adjust designs and ensure print quality meets requirements.

**Freelance Graphic Designer / Creative Design | Jan 2022 - Jul 2024**

- Create and sell a variety of custom visual products, including Eid envelopes, invitations, posters, and promotional banners, using Adobe Photoshop.
- Manage the entire creative process and communication with clients, from initial consultation to product delivery, to ensure designs meet their needs and preferences.

---

## Projects

**GoKantin Online Food Ordering Website | Web Developer (Creation Stage)**

- Designed and developed the GoKantin website with comprehensive features such as user login, digital menu, cart system, order tracking, and admin panel.
- Digitized the food ordering process on campus to improve efficiency and ease of access for users.

## **GoRako Waste Management | Event Organizer, Web Developer ( <https://gorako1.threeds.uno/> )**

- Contribute to the Event Organizer team to plan, promote, and implement waste management educational activities.
- Develop an official campaign website with interactive features such as quizzes, simple waste sorting games, and a rewards system to increase participation.
- The goal of this website development is to increase awareness and engagement among audiences (students and the general public) regarding proper waste management practices.

## **AI News Web | News API ( <https://webberita.threeds.uno/> )**

- Creating a news platform that leverages APIs for content aggregation, with a curation focus on Artificial Intelligence topics.
- This project demonstrated my skills in backend web development and API integration to build a scalable application that automatically delivers relevant information.

---

## **Skills**

- Web Development: Front-end and back-end development
- Programming & Frameworks: HTML, CSS, JavaScript, PHP
- Database: MySQL
- Cloud Computing: Understanding the fundamentals of cloud architecture and IaaS, PaaS, and SaaS service models.
- Artificial Intelligence (AI): Machine Learning fundamentals and AI API integration
- Tools: Git, GitHub, VS Code, Adobe Photoshop, Canva
- Soft Skills: Client Communication, Problem-Solving, Teamwork

---

## **certificates & training**

- National Indonesian Youth Science Olympiad (Informatics), Grade A+
- National Science & Medicine Olympiad (Informatics), Grade A
- 2022 National Brindicator Student Competition (Informatics), Grade A
- National Computer Olympiad (Informatics) Grade B+
- National TIKOM Olympiad (Informatics) Grade B
- Samsung Innovation Campus Batch 6 Stage 1 Participation Certificate
- National Computer-Based Assessment Certificate
- BNSP Competency Certification in Computer and Network Engineering
- AI Engineer for Millennials Graduation Certificate from KOMDIGI
- AI Security Fundamentals Training Certificate from KOMDIGI
- Scaling AI in Organizations Training Certificate from KOMDIGI
- Applying Prompt Engineering | Azure OpenAI Service Training Certificate fKOMDIGI
- Linear Regression Model Training Certificate in Python DQLab
- Machine Learning with Python Beginner Training Certificate from DQLab
- Deep Learning Track Training Certificate DQLab
- Statistics Training Certificate Using Python for Data Science - Part 2 DQLab
- Statistics Training Certificate Using Python for Data Science - Part 1 DQLab
- Python Fundamentals Training Certificate DQLab
- Generative AI Certification | Codepolitan (powered by Google.org) | 2025
